**Course Description**

How archaeologists invent their own version of the past, illustrated with compelling Old and New World discoveries from early prehistory to the present. How archaeological sites are discovered, excavated and analyzed; how facts are tested, and fictions unmasked.

This course is going to introduce to the concepts, theories, data and models of anthropological archaeology that contribute to our knowledge of humans' past, especially when there is no writing history. We will explore what archaeology is and is not. We will explore how archaeology has developed and how it has changed. We will explore the involvement of many new communities and discuss some of the professional and ethical problems between the practice of archaeology today and the conservation, protection, and control of cultural resources. We will explore the interpretation of the material culture using theoretical frameworks that help archaeologists in their research design. We will learn what makes up the archaeological record, what it takes to do fieldwork, and how to collect your data, exploring the tool kit that archaeologists use in the field. Other topics we will discuss include Indigenous archaeology, archaeozoology, bioarchaeology, and ceramic analysis.

## Classroom Protocol and Policies

- **I do not drop** students for non-attendance; you are responsible for your registration status.
- **A grade of Incomplete will not be given to avoid an F in the class.**
- For the asynchronous courses, keep in mind that Canvas records your arrival and leaving times. Being there is an important aspect of your participation.
- **Communication: you can contact me through email or Canvas.** I will answer all emails during regular working hours (Monday through Fridays from 9am-5pm) and within 24 hours during the week. I do not answer emails during the weekend or holidays, or after the official closing of the semester. If you have complex questions regarding course material or many questions regarding missing classes, please make an appointment or utilize office hours, I will not write long or complicated emails. For all issues regarding your grade, please contact me before the official last day of class. I am extremely invested in your learning, so please always feel free to let me know, with time, how you are doing. In this new era of Zoom meetings I will establish some specific considerations (Zoometiquette) to keep in mind when we use this medium.
- **All written assignments are to be submitted through Canvas** or as indicated by the instructor.
- **All assignments and exams are due the date marked in the class schedule** unless the date has been officially changed by the instructor or due to extraordinary circumstances (medical, death in the family).
- **Unexcused late written assignments** will carry a heavy penalty of 10% for each late day and will not be accepted after three days.
- **All assignments are due before the last day of class.**
- **Discussion activities are due on the same day and cannot be made up.**
- **Assignments described as mandatory and all exams are required to pass the class.**
- **Research papers or other written work with a Turnitin score greater than 15%, will not be accepted.** Check your “turnitin” score when you submit your assignment to Canvas, therefore, it is advisable not to wait until the last minute. Build in some extra time to be able to revise your work. Academic dishonesty, cheating or intentional plagiarism indicated by a high “turnitin” score will result in an automatic grade of F (<http://www.sjsu.edu/senate/docs/F15-7.pdf>, you are responsible for knowing the content of this document, no exceptions).
- **Make-up exams** will be given only if, 1) you know in advance that you are unable to complete it due to an important and verifiable reason and have arranged in advance with the instructor for an alternative date prior to its scheduled date, 2) if any reason arises beyond your control you need to notify the instructor before class by email and provide a verifiable reason (note from physician/nurse, etc.) for the absence. Only students with a valid documented excuse will

be able to take a make-up a test (or turn in a late assignment). Make-up exams will only be scheduled within one week from the original due date (I do not provide a study guide).

- **The Final Exam cannot be made-up. Students must take the Final Exam at the scheduled time or earlier with the approval of the instructor.** [University policy S17-1](http://www.sjsu.edu/senate/docs/S17-1.pdf) (<http://www.sjsu.edu/senate/docs/S17-1.pdf>)
- After the end of semester there will be no changing of grades or any further grade negotiation. Canvas keeps you updated on your current grade; it is up to each student to calculate what is needed for the desired goal.
- Students are encouraged to ask questions before, during, and after class and to take full advantage of scheduled office hours or to make appointments.
- **All lectures and course materials, including exams, assignments, quizzes, handouts, and exercises, are copyrighted and may not be distributed without written permission from the instructor.**
