Course Description

Concentration on the theoretical aspects of money and monetary policy. Early and modern theories of money demand; early Keynesian and Monetarist monetary analysis; expectations and dynamic monetary business cycles; monetary policy under the Keynesian, Monetarist and New Classical assumptions; open economy monetary theory.

Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:

- Explain money's vital function and how it interacts with banking and the financial system.
- Explain how the interaction of the demand and stock of money determine the price level.
- Explain seigniorage and the role it has played in the history and evolution of government involvement in the monetary and financial system.
- Explain the complicated relationships between money, interest rates, and fiscal policy.
- Have some familiarity with the various factors that play a role in financial crises.

Required Texts/Readings

Textbook

1. Lawrence H. White, *The Theory of Monetary Institutions* (Oxford: Blackwell, 1999); **ISBN-13:** 978-0631212140.
2. J. Huston McCulloch, *Money and Inflation: A Monetarist Approach*, 2nd edn. (New York: Academic Press, 1982). (This book is out of print but will be available as a pdf copy on Canvas.)
3. Several chapters in N. Gregory Mankiw, *Macroeconomics*, 7th edn. (New York: Worth, 2010); **ISBN-13:** 978-1429218870. (Made available as a pdf copy on Canvas.)

Other Readings

Additional, shorter weekly readings will be made available through links or pdf copies on Canvas.

Final Examination or Evaluation

There is a final exam for the course.

Grading Information

Determination of Grades

Participation in class discussions will determine 15 percent of a student's overall grade. The final examination, which will be comprehensive, is worth another 50 percent out of the total of 100, whereas a mid-term examination is worth 35 percent

97-100 A+	93-96 A	90-92 A-
87-89 B+	83-86 B	80-82 B-
77-79 C+	73-76 C	70-72 C-
67-69 D+	63-66 D	60-62 D-
below 60 F		

Final grades will be curved. However, the curve will never hurt your grade. I do not round up grades, e.g. an 86.9 is a B, not a B+.

Cheating on any exam or plagiarism on any written work will result in an automatic F for the entire course. Plagiarism includes quoting any source, including websites, without giving appropriate attribution.

Classroom Protocol

We will conduct this class as a graduate seminar on Zoom until Feb 14th and in-person afterwards. Rather than only listening to lectures, students should be fully prepared to discuss the assigned readings for each session. Participation in these discussions will determine 15 percent of a student's overall grade. If a student misses a class, they must turn in prior to the next class a brief written summary of the readings assigned for the class they missed. These written summaries must be neatly typed, at least a total of 400 words covering all the readings, but no longer than 500 words.

University Policies

Per University Policy S16-9, university-wide policy information relevant to all courses, such as academic integrity, accommodations, etc. will be available on Office of Graduate and Undergraduate Programs' Syllabus

Information web page at <http://www.sjsu.edu/gup/syllabusinfo/> . Make sure to review these university policies and resources.
