Director's Message

Welcome to the Fall 2022 edition of the Ed.D. Newsletter. In this edition, I am honored to introduce our newest cohort of doctoral students (Cohort 9). These amazing individuals remind me that our Ed.D. Program is now nine years old, which means nine years of committed work in preparing school and higher education leaders who have the “knowledge, skills, and dispositions to address inequitable outcomes through careful and informed assessment of pedagogies, practices, policies, and curricula that hold the potential to improve life chances for all students, including but not limited to minoritized students.” Please take some time to read their short bios and learn about their research interests. In this edition, I am also pleased to introduce our core doctoral faculty group and Annie Nobuhiro, our new program analyst.

Thanks to Annie and our two student assistants (Kristina Dinh and Ethan Robert Burns) for all their work in assembling this Fall 2022 Newsletter. The remaining pages highlight the impressive contributions and achievements of our Ed.D. community of former and current students and faculty, including pictures from the global field experience of Cohorts 7 and 8 who went to Finland this past summer.

I hope this edition motivates and inspires you to get involved in our program in some way. Please do not hesitate to reach out to me if you have questions or would like to discuss issues and concerns that pertain to educational leadership. If you are interested in obtaining your Ed.D. degree at SJSU, please know that our 10th cohort begins in Summer 2023. For more information about various aspects of our program, I invite you to register to attend one of our information sessions by either emailing us at edd-leadership@sjsu.edu or using the QR code below.

Thank you, and best wishes for a safe and meaningful holiday season.

Ferdie Rivera, Interim Director

Cohort 9
