Course Description

Explore issues of poverty, gender, economic transformations, and inequality while examining the history of development. Consider various meanings given to development by women and men, primarily as residents of particular regions, but also as aid workers, policy makers, and government officials. Explore the underlying political, economic, social, and gender dynamics that make "development" an ongoing problem worldwide.

GE Learning Outcomes (GELO)

GLST 143 is an Area V course: Courses in Culture, Civilization, and Global Understanding should give students an appreciation for human expression in cultures outside the U.S. and an understanding of how that expression developed over time. These courses should also increase students' understanding of how traditions of cultures outside the U.S. have influenced American culture and society, as well as how cultures in general both develop distinctive features and interact with other cultures.

Students are strongly encouraged to take courses to satisfy GE Areas R, S, and V from departments other than their major department. Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better, and completion of Core General Education are prerequisite to all SJSU Studies courses. Completion of, or co-registration in, 100W is strongly recommended. A minimum aggregate GPA of 2.0 in GE Areas R, S, and V shall be required of all students. See university Policy S14-5 at <http://www.sjsu.edu/senate/docs/S14-5.pdf>.

Upon successful completion of this course, students will be able to:

1. GELO 1: Compare systematically the ideas, values, images, cultural artifacts, economic structures, technological developments, or attitudes of people from more than one culture outside the U.S.
2. GELO 2: Identify the historical context of ideas and cultural traditions outside the US and how they

have influenced American culture.

3. GELO 3: Explain how a culture outside the US has changed in response to internal and external pressures.

Course Learning Outcomes (CLO)

Upon successful completion of this course, students will be able to:

1. Analyze gender and social inequality from a transnational perspective.
2. Compare various understandings and experiences of development in different contexts.
3. Identify the dynamics of power, privilege, and oppression in international development.

Required Texts/Readings

Readings

Various readings available as PDFs on Canvas as indicated in the course schedule.

Course Requirements and Assignments

Success in this course is based on the expectation that students will spend, for each unit of credit, a minimum of 45 hours over the length of the course (normally three hours per unit per week) for instruction, preparation/studying, or course related activities. Other course structures will have equivalent workload expectations as described in the syllabus.

This course combines lectures, large and small group discussions, and large and small group activities. Each session will consist of three sections: presentation of materials, discussion, and activity. All course assignments are described in the syllabus and more details are provided in Canvas. The assignments in the course are as follows:

1. Reflection Papers (300 points)

After each section, students are required to submit a 500-750 word Reflection Paper on the readings for that section. Submit the assignment on Canvas as a Word (.doc or .docx) document, 12pt TNR font. The paper should include **at least two (2) of the readings from the section**. This is not an essay. It will not be something that you will revise later on and improve. It is also not a summary of the readings. Instead, the Reflection Papers should include your thoughts about the reading in question. It may include questions about the reading, arguments on the issue raised by the author, relevant point not raised by the author, and connections with your own experiences. **Due dates for the Reflection Papers are:**

- **Reflection Paper 1: Introduction to Development (February 13)**
- **Reflection Paper 2: Critiques and New Approaches (March 15)**
- **Reflection Paper 3: Sustainable Development (April 5)**
- **Reflection Paper 4: Global Challenges & Organizing for Change (April 26)**

2. Presentation Proposal (50 points)

Students will **work in pairs** to create a presentation about **one international development project**. Each pair will select a project based on their own interests and submit a proposal for their presentation to ensure that there

is no overlap and that we have a mix of topics. Submit the assignment on Canvas as a Word (.doc or .docx) document, 12pt TNR font. The Presentation Proposal should be 500-750 words and include: the name of both partners working on the project, the name of the project select to present, the name of the organization that manages the project, and a brief list of potential sources of information on the project.

Presentation Proposal is due: February 22.

3. Presentation Storyboard (75 points)

Students **will work in pairs** to present **one international development project**. Each pair will select a project based on their own interests and submit a story map to outline their presentation. A storyboard is a single page with boxes that flow in a logical order. With a storyboard, you'll be able to visualize the sequence of information before creating your presentation.

Presentation Storyboard is due: March 8.

4. Report Outline (75 points)

Students will submit **individual Final Reports** comparing and contrasting **two international development projects**. The Report Outline should provide guidance for your Final Report. It should include a Reference Section. Submit the assignment on Canvas as a Word (.doc or .docx) document, 12pt TNR font, double spaced, with Chicago Style Citation.

Report Outline is due: April 12.

5. Presentation (100 points)

Students will **work in pairs** to present **one international development project**. Each pair will select a project based on their own interests. Each presentation will be between 10-12 minutes, including time for questions. Presentations will need to answer: Who manages the project/ Who is involved in the project? Where does the project take place? Who are the intended recipients of the project? What are the goals of the project? How is gender integrated into the project? Additionally, the presentation will need to critique the project using one or more of the theories presented in the course.

Presentation Dates are: May 3, 8, 10.

6. Final Report (200 points)

In the final report, students will **compare and contrast two international development projects**. One of the projects may be the same as the project in the student's presentation, but the second one must be a unique project. Each student can select any two projects based on their own areas of interest. In addition to answering the questions in the presentation for both projects, students should compare and contrast the projects. Additionally, the students should answer the following questions: How is development conceived of by different stakeholders in the projects? How is gender conceived of and treated by different stakeholders in the projects? What is the role of power in the different projects? Submit the assignment on Canvas as a Word (.doc or .docx) document, 12pt TNR font. The paper should be between 2,250-2,500 words.

Final Report is due: Friday, May 19, 2023.

7. Participation (200 points)

You are expected to participate fully and respectfully in class discussions and on discussion boards. We will be using a variety of tools to communicate including in class discussions, Canvas Discussion Boards, Zoom Chats, Canvas Announcements, and discussions on Zoom. You are expected to participate in each of these various formats. I expect that you will come prepared to talk, write, and think critically about the readings and videos assigned for each class period. This means you must complete assigned reading and videos before class. Participation is a critical aspect of this course, and you are expected to be active participants.

Grading Information

Determination of Grades

Grades will be calculated as followed:

1. 4 Reflection Papers (75 points each) = 300 points
2. Presentation Proposal = 50 points
3. Presentation Storyboard = 75 points
4. Report Outline = 75 points
5. Presentation = 100 points
6. Final Report = 200 points

Late work will be marked down by 1 point for every day that it is late. After 14 (14) days, late work will no longer be accepted. I will grant extensions of up to two weeks (14 days) for all assignments except the presentation. However, extension requests must be sent either via email or Canvas **prior** to the due date. All assignments should be submitted on Canvas and grades will posted there as well. The grading scale is below:
