

Manual Overview

The purpose of this instructional guide is to help you become familiar with MediaHD within Industry Weapon. MediaHD uploads various forms of media to be used within templates and campaigns for digital signs. The following tutorial provided in the instructional guide features screenshots and instructions for uploading media to Industry Weapon. After following this instructional guide, we should understand the processes involved in uploading media to Industry Weapon.

Contents

Manual Overview	1
Contents	1
Upload Media	2

Upload Media

1. Click MediaHD on the orange primary navigation bar

2. Click Add Media

3. Drag-and-drop the file, or click Choose File and select the files to upload

4. Click on the image to preview it

5. Click the close icon

Note: All image files in demonstration are PNGs. PNGs are the recommended filetype for Industry Weapon

6. Click videos tab

7. Processing videos are greyed out when you place mouse over them. Processing time takes roughly twice the length of the video

8. Click a folder to the left

9. Click add media to upload multiple files into the folder

10. Place your cursor on filter

11. Click all to change the filter view to all
