Justice Studies Department Reading and Writing Philosophy.

The Department of Justice Studies is committed to scholarly excellence. Therefore, the Department promotes academic, critical, and creative engagement with language (i.e., reading and writing) throughout its curriculum. A sustained and intensive exploration of language prepares students to think critically and to act meaningfully in interrelated areas of their lives—personal, professional, economic, social, political, ethical, and cultural. Graduates of the Department of Justice Studies leave San José State University prepared to enter a range of careers and for advanced study in a variety of fields; they are prepared to more effectively identify and ameliorate injustice in their personal, professional and civic lives. Indeed, the impact of literacy is evident not only within the span of a specific course, semester, or academic program but also over the span of a lifetime.

Course Format:

This is a fully online, asynchronous course. All instruction will take place online, with no physical in-person or on-campus meetings or in-person activities required. Students will need a computer and reliable internet access with the bandwidth to stream YouTube videos and to complete online assignments. Access to reliable internet is the responsibility of the student. Students will need to be comfortable with Canvas Learning Management System course [login website](http://sjsu.instructure.com) at <http://sjsu.instructure.com>. All assignment submissions must be submitted in Canvas in the appropriate assignment. Assignments sent as email attachments will not be accepted as submitted. All communication will be sent through Canvas, either as announcements or emails. Students are responsible for regularly checking, and are encouraged to stay up-to-date, with class communication.

Embedded in Canvas is **Turnitin.com**, which generates an originality report. Each originality report is reviewed to evaluate for plagiarism. To ensure processing, students are required to submit assignments as Word documents (.docx). Other formats are not able to be consistently and reliably processed by Turnitin.com, an integrated component of Canvas. Students using Google docs or Pages will need to save documents in the .docx format. Failure to comply with this formatting requirement could result in late point deductions or a zero if the assignment is not able to be opened and fully processed for originality. Documents that cannot be processed through turnitin.com cannot be graded.

A fully online asynchronous course allows students to express their thoughts on the related topics via discussions, which will be read, shared, and commented on by all students. All students are to become familiar with Netiquette, which provides detailed information on how to communicate effectively and respectfully online. More information can be found on the internet under "[10 Netiquette Guidelines Online Students Need to Know.](#)"
