**Please note: This planner is NOT an "official" graduation plan.** The Pathway Planner is an exercise designed to help a student create a realistic and timely plan to facilitate their progress toward graduation. For example a student may not be aware that some courses may be offered only during Fall/Spring semesters or that SJSU studies courses require that 60 units including core GE be completed and the WST passed prior to enrolling in R, S, V & Z. This exercise will enable them to become aware of such as the consult with an advisor.

**Though I have reviewed/discussed this Pathway Plan with the student identified above, it is still the student's sole responsibility for the continued development of this plan.**
