

# What Matters to You Matters to Us

## SJSU Patient Attendant/Chaperone Policy

The SJSU Student Wellness Center is committed to a culture of safety, dignity, respect and patient privacy. To help create this safe space, we provide patient attendants for ALL sensitive exams. In addition, you (the patient) and your healthcare provider have the right to request a patient attendant for any other type of physical examination or procedure.

If you prefer not to have a patient attendant present during your sensitive exam, please let your health care provider know.
